NEA, along with our cooperative family associates, are pleased to bring educational assistance and reward the scholastic discipline, community involvement, personal growth/achievement and the defined academic and individual efforts demonstrated through our selection process.

Sign up sheets are now available for the Tri-State G&T and Niobrara Electric Association's offering for irrigation assessment.

Assessments will be conducted May 13th—24th. If you have a preference on the day, please sign up now to schedule your chosen date.

The assessments being offered in May are free to those who have signed up.

There is no obligation for the member to follow the recommendations the assessment provides. However, there may be opportunities for energy rebates on equipment. Many of our members could benefit from updating motors and with the use of variable speed drives.

We can accommodate the first 30 pivots registered for assessment during our May timeframe. Members with multiple irrigation pivots will need to choose which five (5) they want to have evaluated.

Take advantage of this opportunity for assessment by calling or stop in at the NEA office and visit with member services.
